

APEC Pump Enterprise Corp.

AL-SERIES

To be Use for Great Volume of Water Convey. River, Channel, Farming, Aquatic Pond, Industrial Drainage.

AL-1212

AL-1075

AL-855

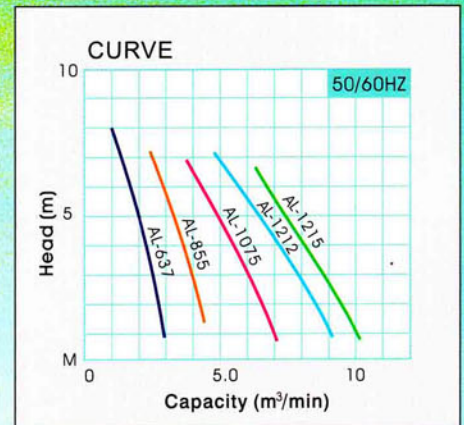

AL-637

Character

- 1 Shaft spread design, specially for great volume of water flow.
- 2 Easy to operate, no need high voltage power. More economic, and almost no vibration and noise.
- 3 Pump body and pump casing made by alloy copper and stainless steel, reliable and corrosice-resist.
- 4 Use grinding-resist double mechanical seal, reliable for sea water, muddy, waste water.
- 5 Cable connector special designed with good water-resist.
- 6 Precision designed short screw, easy to dismantle and assemble.

TYPE	Power	Caliber	Phase	Voltage	Polarity	Standard Performance		Max Performance		Weight	Diameter	Height	Cable
	HP	Inch	ϕ	V	P	M	m³/min	M	m³/min	Kg	mm	mm	mm² xm
AL-637	5	6"	3 ϕ	380V/415V	4	5	2	8	3	70	270	680	5.5X10
AL-855	7 1/2	8"	3 ϕ	380V/415V	4	5	3.5	8	4.5	120	340	920	5.5X10
AL-1075	10	10"	3 ϕ	380V/415V	4	5	5	8	7.5	180	370	1100	8.0X10
AL-1212	15	12"	3 ϕ	380V/415V	4	5	6.5	7	10	225	430	1080	8.0X10
AL-1215	20	12"	3 ϕ	380V/415V	4	5	7.5	7	11	236	430	1100	8.0X10
